

# 16<sup>th</sup> Annual Conference of Paediatric Orthopaedic Society of India

23<sup>rd</sup>-24<sup>th</sup> January 2010, Gandhi Medical College, Hyderabad

Theme: "RECONSTRUCTIVE PROCEDURES IN PAEDIATRIC ORTHOPAEDICS" (Hip & foot)

## 23<sup>rd</sup> January 2010, 8.00 am – 9.00 am: GUEST LECTURES (3 X 20 minutes)

1. *Dr. Stuart Weinstein*: Developmental Hip Dysplasia and Dislocation: What Have I Learned over 33 Years in Practice.
2. *Dr. Colin Moseley*: Management of leg length discrepancy
3. *Dr. Michael B Millis*: Treatment of hip impingement secondary to healed Perthes' disease

## 23<sup>rd</sup> January 2010, 09.00 am – 10.30 am: SYMPOSIUM – RECONSTRUCTION OF THE FOOT

- 09.00 – 09.05: Introductory comments
- 09.05 – 09.20: Vertical talus: *Dr. Mathew Dobbs*
- 09.20 – 09.35: The symptomatic flexible flatfoot: *Dr. Perry Schoenecker*
- 09.35 – 09.45: The foot in tibial and fibular deficiency: *Dr. Benjamin Joseph*
- 09.45 – 10.00: The cavus foot: *Dr. Chris Reilly*
- 10.00 – 10.10: The paralyzed foot: *Dr. Benjamin Joseph*
- 10.10 – 10.25: The spastic foot: *Dr. Dhiren Ganjwala*
- 10.25 – 10.30: Concluding remarks

## 23<sup>rd</sup> January 2010, 10.30 am – 12.30 am: FREE PAPERS – POSI BEST PAPER AWARD SESSION (12 minutes: 8 min presentation + 4 min discussion x 10 papers)

1. Management of idiopathic club foot by Ponseti method - short term follow up Dr.M.Suresh Babu, Chennai
2. Outcome evaluation of clubfoot treated by soft tissue release through the hemi-Cincinnati incision a mid-term follow- up study. Dr. Amrinder Singh, Manipal
3. Study of surgical exposures by hemi-Cincinnati incision verses Turco incision for postero-medial soft tissue release in club foot. Dr Jagannatha Sahoo, Tirupati
4. MRI evaluation of femoral and acetabular anteversion in developmental dysplasia of hip: A study in early walking age group. Dr. Aditya Krishna Mootha, Chandigarh
5. Talo-navicular angle on sonography during Ponseti correction of clubfoot: a prognostic indicator? Dr. Naveen Gupta, Chandigarh
6. Application Of Ilizarov In Correction Of Forearm Deformities Due To Multiple Exostoses. Dr. Kirti Ramnani, Mumbai
7. Does Instability In Fracture Configuration Correlate With Clinical Loss Of Reduction In Supracondylar Fractures Treated Surgically? Dr Balakumar B, Vellore.
8. Is universal ultrasound screening for DDH relevant to south Indian population? Dr Chirag Bhalvani, Vellore.
9. The role of the fibula in management of the congenital Pseudarthrosis of the tibia. Dr Hitesh Shah, Manipal
10. Stabilization of the cervical spine in pediatric & adolescent patients with infective spondylodiscitis without or with functional neurodefecit -treatment algorithm and surgical selection. Dr Swapnil Keny, Mumbai

**23<sup>rd</sup> January 2010, 12.30 pm – 1.00 pm: LUNCH**

**23<sup>rd</sup> January 2010, 1.00 pm – 2.00 pm: INTERACTIVE CASE DISCUSSION – TREATMENT DILEMMAS**

**23<sup>rd</sup> January 2010, 2.00 pm – 3.00 pm: GUEST LECTURES (3 x 20 minutes)**

1. *Dr. Mathew B Dobbs*: Role of surgery in the modern day treatment of clubfoot
2. *Dr. Chris Reilly*: Management of Paediatric ACL injuries
3. *Dr. Young Jo Kim*: Treatment of unstable SCFE using the modified Dunn technique

**23<sup>rd</sup> January 2010, 3.00 pm – 4.00 pm: FREE PAPERS SESSION -1 (8 minutes: 5 min presentation + 3 min discussion x 7 papers)**

1. Congenital pseudarthrosis of tibia. Multimodal treatment with the Ilizarov technique. Dr Milind M Chaudhary.
2. Management of bone loss in children secondary to pyogenic osteomyelitis of long bones Dr. Harish. P, Vellore
3. Analysis of outcomes and complications after femoral lengthening in children Dr. PN Gupta, Chandigarh
4. Stature lengthening in skeletal dysplasia Dr. Sanjay Chilbule, Vellore
5. Supra-supracondylar fractures of humerus in children. Dr Sujit Kumar Tripathy, Chandigarh
6. Modified French osteotomy for cubitus varus deformity-our experience Dr. Penigalapati Hemanth Kumar, Tirupathi
7. Recurrence after surgery for equinus foot deformity in children with cerebral palsy- assessment of predisposing factors for recurrence in a long term follow-up study. Dr Durga Nagaraju K, Wilmington

**23<sup>rd</sup> January 2010, 4.00 pm – 5.00 pm: INTERACTIVE CASE DISCUSSION – COMPLICATIONS**

**5.00 pm – 6.00 pm: EVIDENCE-BASED ORTHOPAEDICS**

1. *Dr. Kishore Mulpuri*: Evidence-based Orthopaedics
2. *Dr. Stuart Weinstein*: Evidence-based Research in Orthopaedics
3. *Dr. Colin Moseley*: Evidence-based Medicine: The dark side

**24<sup>th</sup> January 2010, 8.00 am – 9.00 am: GUEST LECTURES (3 X 20 minutes)**

1. *Dr. Sanjeev Sabharwal*: Treatment options for Blount's disease
2. *Mr. Bruce Foster*: Physeal surgery – experimental and clinical results
3. *Dr. Perry Schoenecker*: Non-osteotomy treatment of Perthes' disease

**24<sup>th</sup> January 2010, 9.00 am – 10.00 am: FREE PAPERS SESSION -2 (8 minutes: 5 min presentation + 3 min discussion x 7 papers)**

8. The mode of inheritance and other variables in idiopathic talipes equinovarus. Dr. R. S. Kulkarni, Sindhudurg.
9. Evaluation of clubfeet treated by Ponseti's technique – An analysis of form, function & radiology at 2 yrs follow-up Dr K Venkatadass , Coimbatore
10. Neglected idiopathic CTEV in school going children Dr. K. Meenakshi Sundaram,

- (4-8years) managed by jess fixation Salem
11. Evaluation of late presented CTEV managed by ligamentotaxis. Dr. Ajai Singh, Lucknow
12. Management of neglected clubfoot in older children by applying ponseti principles in Ilizarov external fixator. Dr. Agrawal RA, Gorakhpur
13. Management of recurrent and /or late presentations of club foot by modified ponseti technique and dorsal wedge osteotomy- a prospective study in 82 children Dr. Viraj UttamRao Shingade, Nagpur
14. Computed Dynography, a new method for evaluation of gait pattern in treated (Ponsetti & Surgically)cases of Congenital Talipes Equino Varus Dr. Agrawal.Lavesh, Indore

**24<sup>th</sup> January 2010, 10.00 am – 11.00 am: FREE PAPERS Session -3 (8 minutes: 5 min presentation + 3 min discussion x 7 papers)**

15. Preliminary results of autologous chondrocyte transplantation for physeal injury in goats. Dr. Karthikeyan.R , CMC, Vellore
16. Periosteal grafting for nonunion and deformity correction in children Dr. Anil Agarwal, Delhi
17. Tardy displacement of radial head: case report and evaluation of ulnar bow sign. Dr Inna Prashanth, Korea
18. Treatment of developmental dysplasia of the hip in older children. Prof. Javed I Anjum, Pakistan.
19. Combined scapular neck osteotomy & soft tissue rebalancing for severe glenohumeral dysplasia secondary to brachial plexus birth palsy: early results of a new approach. Dr.Maulin Shah
20. Congenital vertical talus our results and experiences. Dr Ravi Kumar.S, Puttaparthi
21. Complications during post surgical rehabilitation following single event multilevel surgery in cerebral palsy. Dr. Deepak Sharan, Bangalore

**24<sup>th</sup> January 2010, 11.00 am – 12.30 pm: SYMPOSIUM – RECONSTRUCTION OF THE HIP IN NEUROMUSCULAR DISEASE**

- 11.00 – 11.15: The role of muscle balance: *Dr. Vrisha Madhuri*
- 11.15 – 11.30: The role of proximal femoral osteotomy: *Dr. Ashok Johari*
- 11.30 – 11.45: Guidelines for the choice of the pelvic osteotomy: *Dr. Harish Hosalkar*
- 11.45 – 12.00: Dega osteotomy in the paralyzed hip: *Dr. Kishore Mulpuri*
- 12.00 – 12.15: Triple osteotomy for the paralyzed hip: *Dr. Young Jo Kim*
- 12.15 – 12.30: The role of correcting pelvic obliquity & spinal deformity: *Dr. Chris Reilly*

**24<sup>th</sup> January 2010, 12.30 pm – 1.15 pm: INTERACTIVE CASE DISCUSSION – DIAGNOSTIC CHALLENGES**

**24<sup>th</sup> January 2010, 1.15Pm -1.30pm: Valedictory function**
