

POSI

Paediatric Orthopaedic Society of India  
Presents

# POSICON 2021

**VIRTUAL CONFERENCE**

**Dates: 23<sup>rd</sup>, 24<sup>th</sup>, 30<sup>th</sup>, 31<sup>st</sup> January, 2021**

[www.posi.in](http://www.posi.in)

# PRESIDENT'S MESSAGE

Dear Colleagues,

We are about to create history for POSI with the first-ever virtual annual scientific meeting. A few months ago, we could not have believed this. However, the COVID-19 pandemic has forced us to think about an alternative to a physical conference.

It is rightly said, 'Every adversity brings an opportunity'. The need of the hour is judicious use of available resources. The executive committee of POSI really deliberated over the situation arising out of unforeseen circumstances and came out with an innovative solution. The new option in the form of a virtual meeting will help us to save a lot of time and expenses on travel and accommodation.

To ensure the best learning, we have spread out the whole program over two weekends in the month of January 2021. We shall have 3 hours session each day for four days. Popular sessions like case discussion sessions, the best scientific paper sessions, and theme based symposia will also be the highlights of this meeting.

One of the advantages of the virtual meeting is, we can invite experts from various parts of the world. And we have a galaxy of experts for POSICON 2021. Though we shall miss the social aspect of the POSICON, we shall have the highest level of the academic program at par with other POSICONS.

Let's continue to move along the path of serving the children.

Let's be resilient and bounce back together to explore this opportunity.

Let's take all precautions to stay safe and healthy.

With regards,  
**Dhiren Ganjwala**

## — COMMITTEE —

- Dr. Dhiren Ganjwala, President
- Dr. Ramani Narasimhan, Past President
- Dr. Alaric Aroojis, Vice President
- Dr. Sandeep Patwardhan, Secretary
- Dr. Hitesh Shah, Treasurer
- Dr. Jayanth Sampath, Journal Editor
- Dr. Manoj Padman, EC Member (North Zone)

- Dr. Viraj Shingade, EC Member (West Zone)
- Dr. Bibhu Datta Sahoo, EC Member (East Zone)
- Dr. K. Venakatadass, EC Member (South Zone)
- Dr. Taral Nagda, Website Committee Member
- Dr. Easwar T. R., Website Committee Member
- Dr. Ashok Shyam, Website Committee Member

# PROGRAM

**Saturday, 23<sup>rd</sup> January, 2021 | 6.30 pm - 9.30 pm**

**Theme based session (1 hour):**

- Congenital Vertical Talus
- Non-operative management: [Mathew Dobbs](#)
  - Surgical management - when and how: [Hitesh Shah](#)
  - Management of non-idiopathic CVT: [Harold Van Bosse](#)

**Best paper session (1 hour)**

Presentation time - 7 minutes

Questions time - 2 minutes

- Comparison of the outcome in bilateral Perthes disease with unilateral Perthes disease: [Kumar Amerendra Singh](#)
- Demographic and Practice Variability amongst Indian centres in a Multicentre Prospective Observational Study on Development Dysplasia of Hip: [Deepika Pinto](#)
- Observational gait analysis in children with cerebral palsy using the Edinburgh Visual Gait Score (EVGS) and smartphone-based slow-motion video technology: [Bhushan Sagade](#)
- Tuberculosis of the spine in children - Does drug resistance affect surgical outcomes?: [Arjun Dhawale](#)
- Orthopaedic manifestation as the presenting symptoms of Neuroblastoma: [Siddarth Kamath](#)

**Case discussion (1 hour)**

Diagnosis dilemma: [Alaric Aroojis](#), [Manoj Padman](#)

**Sunday, 24<sup>th</sup> January, 2021 | 10.00 am - 1.00 pm**

**Theme based session (1 hour):**

Reconstruction options for septic sequelae

- Hip: [Ashok Johari](#)
- Knee: [Fergal Monsell](#)
- Ankle: [Sanjeev Sabharwal](#)

**Best paper session (1 hour)**

Presentation time - 7 minutes

Questions time - 2 minutes

- Clinical surveillance of the infantile shoulder dislocation in residual Brachial Plexus Birth Palsy and its correlation with Ultrasound diagnosis: [Maulin Shah](#)
- Pathological fractures following osteomyelitis of long bones in children - experience at a tertiary care institute: [Vigneshwaran P.](#)
- Early results of a dedicated Hip Surveillance Programme to detect hip displacement in children with Cerebral Palsy: [Suresh Chand](#)
- Modified Dunn Osteotomy for Moderate and Severe Slipped Capital Femoral Epiphysis - A retrospective study of thirty hips: [Mandar Agashe](#)
- Does acetabulum remodel following proximal femur varus derotation osteotomy in Perthes' disease? A retrospective study: [Nitish Bikram Deo](#)

**Case discussion (1 hour):**

Controversies in the management:

[Taral Nagda](#), [Thomas Palocaren](#)

# PROGRAM

**Saturday, 30<sup>th</sup> January, 2021 | 6.30 pm - 9.30 pm**

- Theme based session** (1 hour): Fracture neck of femur - Preventing & tackling complications
- Coxa vara: [Ken Illingworth](#)
  - AVN: [Salil Upasani](#)
  - Non-union: [Sandeep Patwardhan](#)
- Paper session** (1 hour)  
Presentation time - 5 minutes  
Questions time - 2 minutes
- Does the outcome differ in children with Perthes Disease presented at stage of avascular necrosis and at early stage of fragmentation?: [Chaitan Jaunky](#)
  - Cost-effective options of limb salvage in pediatric bone sarcomas - minding the problem and finding solutions in developing countries: [Love Kapoor](#)
  - Septic Arthritis - A changing Microbiological Profile: [Rakesh Reddy Pachika](#)
  - Swaddling Practices in India - Are they Hip-Safe? A Survey of Paediatricians, Nurses and Caregivers: [Alaric Aroojis](#)
  - Congenital Posteromedial Bowing of the Tibia - Comparison of early and late lengthening: [Ishani M. Chaudhary](#)
  - Extracorporeal Radiation Therapy (ECRT) and Reimplantation after Wide Resection of Malignant Bone Tumors in Children: [Ashish Kumar Ragase](#)
  - Is bone consolidation changed by plating after lengthening of the tibia? A review of 35 cases: [Ishani Pinakin Shah](#)
  - Modified Velpeau sling application for the treatment of fractures around shoulder in infants: [Chinmay Arunrao Sangole](#)
- Case discussion** (1 hour): Complications: How to prevent and how to manage?:  
[Ramani Narasimhan](#), [John Mukhopadhaya](#)

**Sunday, 31<sup>st</sup> January, 2021 | 10.00 am - 1.00 pm**

- Case discussion** (1 hour): Upper extremity problems: [Rujuta Mehta](#), [Premal Naik](#)
- Paper session** (1 hour)  
Presentation time - 5 minutes  
Questions time - 2 minutes
- Adolescent Scoliosis Pathway - Outcomes of Predictive Postoperative Ward Based Care for Patients undergoing Posterior Correction of AIS: [Siddharth Sanjay Shah](#)
  - Limb salvage in malignant and aggressive tumors of the humerus in children - what are the options of surgical resection and reconstruction?: [Roshan Banjara](#)
  - Septic Sequelae of hip in children - Clinicoradiological outcome at minimal 5 years follow up: [Anil Agarwal](#)
  - Allograft in Pediatric Spine: [Abilash Srivatsav](#)
  - Analysis of complications in management of Early Onset Scoliosis - An Indian Scenario: [Akshay Gadiya](#)
  - Management of Syndromic clubfoot using ponseti Method: [Ranjith Nellore Mahesh](#)
  - Results of Earliest Return of functions in Angular Deformity Correction after Growth Modulation patients using 8 plate / PET Screw: [Jaideep Anandrao Dhamele](#)
  - Post septic hip dislocation sequelae (Choi type IVA) in children managed with open reduction - a series of 11 children: [Prateek Rastogi](#)
- Theme based session** (1 hour): Neuromuscular conditions
- Preventing contractures in CP: [Kerr Graham](#)
  - Management of cavovarus foot: [Durai Nayagam](#)
  - How did we make Victoria a crouch free state: [Kerr Graham](#)

## REGISTRATION DETAILS

**P. G. Student: INR 1,000**

**POSI Member: INR 2,000**

**Non-Member: INR 3,000**

Online processing fee of 2% will be applicable for Credit Card Payments
